Dusit International

“In a world of competitive parity, the Dusit Brand is unique.

The origins of our brand go back over 60 years. It began with an expression of desire from our founder ‘to build a hotel that would be like the ones she had admired in the USA but one that would be specifically Thai.’

“In the early 1900’s King Rama VI of Thailand envisaged a model utopia, a ‘town in heaven’ he called Dusit Thani. It is the inspiration for all we do”

Thanpuying Chanut Piyaoui
Founder, Dusit International

Today that ambition is readily accepted but in 1949 the concept of a world-class hotel, with an intrinsically Thai character in a country at the beginning of its modern era was not only daring, but also audacious.

The sheer scale of this vision is part of our distinctive heritage. It requires us to always be bold and do great things, to create and invent, to pursue perfection, but always remain true to who we are.

This DNA is fused within each of our brands whether at hotel or product level. It is the basis for all we do, it is a guide to inspire and measure the experience we create for our guests every moment of every day.”
